Moments your clients won't find on their own – and will never forget.

GUIDED TRAVEL, REDEFINED

Roam by Tauck is small-group travel designed for travelers in their 40s and 50s who want more from their time away. More flexibility. More depth. And the space to slow down without missing a thing.

Launching across 2026 and 2027 with 12+ itineraries on land, river, and small ship, each journey brings together an intimate group of just 16 guests on average, blending Tauck's legendary access and support with a more

modern rhythm. Days balance immersive cultural moments and active excursions with time to explore, indulge, or simply recharge – all without the stress of planning it themselves.

Whether it's a challenging hike, a Michelin-star meal, or a slow morning at the spa, Roam by Tauck gives your clients the freedom to shape each day, with the confidence of knowing every detail is taken care of.

UNLOCK THE EXTRAORDINARY

Roam by Tauck journeys are designed to deliver Signature Moments your clients will talk about long after they return home – curated experiences that highlight what’s rare, remarkable, or unforgettable about a destination.

Whether it’s unique VIP access, a physical achievement, a standout culinary experience, or a can’t-miss cultural event, these moments add dimension, depth, and emotional payoff to every journey.

They’re not optional or extra. They’re built into the experience – thoughtfully selected by our Tour Architects and delivered with the care, insight, and expertise your clients expect.

FLEXIBLE BY DESIGN

Structure and spontaneity don’t have to be at odds – Roam by Tauck is built on the balance of both. With half of each day guided and half reserved for curated choices or free time, your clients can shape their experience around what matters most in the moment: discovery, relaxation, connection, or simply doing nothing at all.

Every journey blends immersive group moments with space to explore, unwind, or dive deeper – without the stress of planning or the pressure to keep up.

It’s travel with a plan, not a script.

No packed itineraries. No pressure to keep up. Just the perfect balance of shared experiences and the space to make each day their own.

SIGNATURE MOMENTS

Every journey is shaped by experiences that turn travel into something extraordinary. Think rare access, active challenges, unforgettable flavors, and once-in-a-lifetime events that spark emotion, connection, and awe.

REST IS PART OF THE PLAN

Modern travelers want more than a packed itinerary – they want space. Space to settle in, reset, and truly enjoy the places they're in. That's why Roam by Tauck includes three- and four-night stays, retreat-style properties, and built-in moments to slow down without missing out.

Whether your clients recharge through spa rituals, quiet walks, wellness offerings, or simply sleeping in, each journey makes room for them to exhale – without compromise.

This isn't a pause in the experience. It's part of what makes the experience so rewarding.

REWARDING IN EVERY SENSE

Roam is guided travel that feels good – not just emotionally, but physically, sensorially, and aesthetically. From chef-driven meals and locally sourced wines to design-forward hotels and curated spaces full of warmth and texture, every element is considered and elevated.

This isn't luxury for its own sake. It's about creating an atmosphere that inspires presence – where the details, pacing, and mood all align.

Because when every sense is engaged, your clients feel more connected to the moment – and more fulfilled by the journey.

Curated to restore. Designed to delight. Roam by Tauck experiences engage every sense, leaving space to linger, indulge, and exhale.
